

Alejandro Fonollosa Calduch

RESUMEN LIBRE DEL CURRÍCULUM

I got my grade in Medicine in 2001 (Universidad Autónoma de Barcelona). I performed my specialization in Ophthalmology in Hospital universitario Vall d'Hebron de Barcelona from 2002 to 2006; afterwards, in this hospital I worked as a consultant during 3 years as a medical and surgical retina and uveitis specialist. I got my doctorate in 2007 (Universidad Autónoma de Barcelona).

In 2009 I moved to Bilbao (Basque country) due to personal reasons where I started to work as a consultant in Hospital Universitario Cruces (Universidad del Pais Vasco) and since 2011 also in Instituto Oftalmológico Bilbao as a medical and surgical retina and uveitis specialist. Since 2010 I am the principal investigator of the Ophthalmology Research Group (Biocruces Bizkaia Health Research Institute) and collaborator investigator in GOBE (Grupo de Oftalmobiología Experimental, whose principal investigator is Prof. Elena Vecino). Since 2017 I am associate professor of Ophthalmology at the Universidad del Pais Vasco.

My main research line is Uveitis and diabetic retinopathy, specifically pathogenesis of macular edema. I have 57 papers in Pubmed, over all international publications and I have participated in several international and national clinical trials regarding medical retina and Uveitis. In 2014, me and 4 more uveitis specialists formed the Spanish Society of Ocular Inflammation; I am the treasurer of this society.
